OPTIMOTION ORTHOPAEDICS

From L to R: Sergio A. Martinez, DO; Marilyne Etienne, PA-C; Steve V. Nguyen, MD; Nam Dinh, MD; Amanda L. Rogan, PA-C; Justin P. Gambone PA-C

ABOUT THE PRACTICE: At Optimotion Orthopaedics, we are excited to introduce the three newest members of our growing team of orthopaedic providers—Sergio Martinez DO, Marilyne Etienne PA-C, and Justin Gambone PA-C. All our providers have been carefully selected and have undergone additional, extensive training in order to ensure consistent, superior outcomes. Dr. Martinez has been in the Central Florida community for over 6 years, where he strives to deliver personalized, compassionate care. As a loving husband and father of four beautiful children, faith and family are of the highest importance in his day-to-day life. Dr. Martinez encourages staying active, eating healthy, and keeping a positive attitude, as he believes physical and mental health are the keys to a balanced, happy life. These philosophies are mirrored in his approach to patient care. **OUR COMMITMENT:**

Whether surgical or non-surgical, our practice strives to give each patient the best possible experience in joint care. Our philosophy of combining the best providers with advanced surgical techniques and implant choices is how we deliver exceptional outcomes. We are pioneers in using minimally invasive surgical techniques, such as the lateral approach total knee replacement and the robotic-assisted anterior approach total hip replacement. Alongside these techniques, we are now proud to offer the Optimotion Implants LLC total knee system to our patients. The Optimotion Implants system was co-designed by founder Steve Nguyen, MD, to enhance the benefits of the minimally invasive lateral approach, as well as increase stability and longevity for the more active, younger patient. Currently, the use of this cutting-edge knee replacement implant system is exclusive to Optimotion Orthopaedics.

TOP DOCTORS: Steve Nguyen, MD
